INDEX TO 1950 MENTAL HOSPITAL SERVICE BULLETINS

VOLUME 1

An index of the 1950 *Bulletins* is included in this issue to help you locate quickly any of the more than 250 separate topics that were published during the past year. Beyond that we hope subscribers will be impressed by the broad base for exchanging information through the A.P.A. Mental Hospital Service as reflected in this index.

The first section lists the subjects covered ered. The second cites the hospitals and state departments mentioned. The third part, which will be printed with the February issue, gives a topical listing of all articles appearing in "Commentary."

As you know, the majority of the items running in the *Bulletin* are sent in by hospitals themselves. During 1950, 134 institutions contributed.

New York state headed the list with 11 state hospitals, 6 private hospitals, and 3 VA hospitals, in addition to the State Department of Mental Hygiene, sending in material. Next was New Jersey with 9 institutions, followed by Illinois and Ohio with 8 apiece.

Trenton (N.J.) State Hospital was the largest individual contributor, being responsible for 8 stories. Illinois Department of Public Health led the state mental hospital authorities with 7 items. Among private hospitals, the Institute of Living, Hartford, Conn., furnished 6 pieces. VA hospitals were responsible for 15.

The content of the 1950 *Bulletins* substantiates the basic assumption that all hospitals have developments, techniques, improvisations, and shortcuts that would be of practical value to other hospitals were they brought to light through the *Bulletin*.

We hope that the new year will bring increased contributions from all institutions, but particularly from private hospitals, general hospitals with psychiatric departments, schools for mental deficiency, and Canadian hospitals.

A

Achievement Award, May, pg. 4; Oct., pg. 1, (*On the Positive Side*); Nov., pg. 1
Active State-Wide Volunteer Program, Oct., pg. 1, 11-11.
Addicts Anonymous Group Formed, Sept., pg. 1, 17-18.
